Location: Green Mountain Retreat, Los Gatos

Taiwanese American Culture
Learn about Taiwanese heritage, language, and culture through workshops: LYF weaves Taiwanese values, customs, stories and food with the quintessential American summer camp experience. It's the only place where you'll find a night market and tsua bing side-by-side with leadership development workshops and campfire.

Mentorship & Guidance
Connect with older Taiwanese American mentors and role models as they volunteer at LYF to help mentor the next generation of Taiwanese Americans! Working professionals, college student leaders, "camp babies" who grew up in camp, and community leaders who are excited for their first camp unite to help guide your children through all walks of life.

Lifelong Friendships
Build lifelong friendships with other Taiwanese American kids: For 38 years, LYF camp has provided a space for children to let down their guard and truly be themselves. Our campers tell us that camp has become a cornerstone of their Taiwanese identity, and that they only wish that they attended camp earlier.

“ Those involved in TACL-LYF create a camp environment that is indescribable to anyone who has never experienced it for themselves. It is incredibly welcoming and supportive, while also pushing each of us to be the best person we can be. ” - Lindsey Chou, 2021

“ I decided to send my child to LYF Camp so they could have the summer camp experience, help build independence, and learn about their culture by reinforcing Taiwanese American identity and friendships. ”
